AGM BATTERY

24MX935

Pro-Guide® BATTERIES

UNIT SPECIFICATIONS

Voltage	12V
CCA	750
CA	935
RC	140
AH	N/A
Group Size	24
Weight	42
Dimensions (mm)	260 x 173 x 197
Dimensions (In)	10.25 x 6.81 x 7.75
Terminal Height	225mm / 8.88In
Chemistry	AGM
Discharge	-4°F - 140°F
Charge	-0°F - 122°F
Storate	-4°F - 140°F
Normal O T R	68 - 86F

The Pro-Guide AGM Starting Battery line offers high-performance batteries for marine applications. With up to 1150 Marine Cranking Amps and up to 200 minutes of Reserve Capacity, these batteries provide reliable and consistent starting power. Available in 24, 27, and 31 group sizes, the Pro-Guide AGM Starting Battery line is designed to fit a variety of marine applications. With advanced AGM technology, these batteries offer superior performance and longer life than traditional flooded options.
