## AGM BATTERY

# 31MX1150

| UNIT SPECIFICATIONS | |
|---|---|
| Voltage | 12V |
| CCA | 925 |
| CA | 1150 |
| RC | 200 |
| AH | 100 |
| Group Size | 31 |
| Weight | 60 |
| Dimensions (mm) | 332 x 172 x 210 |
| Dimensions (In) | 13.07 x 6.77 x 8.27 |
| Terminal Height | 231mm / 9.09in |
| Chemistry | AGM |
| Discharge | -4°F - 140°F |
| Charge | -0°F - 122°F |
| Storate | -4°F - 140°F |
| Normal O T R | 68 - 86F |

The Pro-Guide AGM Starting Battery line offers high-performance batteries for marine applications. With up to 1150 Marine Cranking Amps and up to 200 minutes of Reserve Capacity, these batteries provide reliable and consistent starting power. Available in 24, 27, and 31 group sizes, the Pro-Guide AGM Starting Battery line is designed to fit a variety of marine applications. With advanced AGM technology, these batteries offer superior performance and longer life than traditional flooded options.
